

REMARKS

In the Office Action mailed April 24, 2007, the Examiner objected to the Abstract. The Abstract has been amended to reduce its length to less than 150 words and otherwise address the objections of the Examiner. Modification of the phrase "mounting means" and "connection means" to instead refer to a "mount" and a "connection," respectively, has also been made by amendment in Claims 1, 19, and 22.

The Examiner further objected to Claim 1 for its reference to "digital converter" in line 12. The claim element has been amended to be plural and now refers to "digital converters."

Claim 13 was objected to as lacking antecedent basis for "the at least one low pass filter." Claim 13 has been amended to depend from Claim 11, which provides antecedent basis for the elements of Claim 13. Additionally, new Claim 25 has been added with elements similar to those recited in Claim 13, but dependent on Claim 12, which also provides proper antecedent basis.

Claims 4-6, 8, 19, and 20 were rejected as being indefinite for reciting the word "preferably." Applicant has amended these claims to remove the word "preferably." In addition, new Claim 24 has been added to recite elements that were previously recited in Claim 4. Applicant respectfully requests withdrawal of the rejection of Claims 4-6, 8, 19, and 20, as said claims meet the requirements of Section 112, second paragraph.

CONCLUSION

With the allowance of Claims 1-3, 7, 9-18, and 21-23, and with the allowability of amended Claims 4-6, 8, 19, and 20, as well as new Claims 24 and 25, the application is believed
